Objective

Data-science-focused Computer Science student at the University of Toronto Mississauga with strong foundations in Python, machine learning, and cloud computing. Passionate about building structured datasets, training interpretable models, and developing intuitive tools that bridge technical insights with real-world applications.

Technical Skills

Languages: Python, Java, Dart, C++

ML & Data Tools: Pandas, NumPy, scikit-learn, Matplotlib, Azure ML

Frameworks: Flutter, Dart

Core Competencies: Machine Learning, Data Analysis, Synthetic Data Design, Model Evaluation, Cloud Computing

Projects

GeoGuessr-Inspired Country Classifier (*Python, scikit-learn, Pandas*)

Built a synthetic-data ML project to mimic GeoGuessr-style geographic reasoning. Designed a 200-row, 12-feature dataset across 7 countries. Trained a Decision Tree Classifier with ~80% accuracy. Learned dataset design, categorical encoding, and model evaluation.

LIN101 Study Hub (*Flutter, Dart*)

Developed a course-specific study platform for linguistics. Implemented responsive UI and modular architecture. Designed navigation and search features aligned with UTM's curriculum.

MapMates (*Flutter, Dart*)

Created a geography puzzle game inspired by GeoConnections. Engineered continent-matching logic and clean UI/UX for beginner-friendly gameplay.

TypeBlast (*Java*)

Built a typing-based game with real-time input handling, scoring algorithms, and responsive feedback. Ensured smooth cross-platform performance.

Certifications

- Microsoft Certified: Azure Fundamentals
- Kaggle Certificate: Intro to Machine Learning
- PCEP – Certified Entry-Level Python Programmer

Education

University of Toronto Mississauga

2025–2029

Honours B.Sc. in Computer Science

Leadership & Volunteering

- Logistics & Finance Officer, CS Student Community @ UTM
- Volunteer, Building Multicultural Communities (120+ hours)
- High School Ambassador, Peel Student Presidents' Council

Awards

- Governor General's Academic Medal
- Mathematics Award
